

SUBSCRIPTION BILLING SERVICE

CHALLENGE:

Companies who want to sell subscription / consumption based services, software and hardware bundles face a challenge how to manage new way of invoicing, accounting, claiming, financing, forecasting and reporting their revenue in subscription based business model.

SOLUTION:

End-to-end financial services support that is focused on subscription based business model, including Invoice, Report, Claim services by optional commerce portal offering (Rethink)

OUR ADDED VALUE:

- Allowing ISV to focus on development, instead of building an accounting organization

TO ARCHIVE THAT WE UTILIZE:

- AGS shared services organization with skilled experts in billing services
- Knowledge management process that ensures your accounting standards are used at all times

OUR DIFFERENTIATORS:

- "Pay as you grow" revenue based pricing
- Focus on ISVs
- Understanding of subscription and consumption based SaaS economy
- Optional end-to-end managed and professional services available
